

**Source:** StoneRidge Management Consultants Inc.

**Job Title:** Safety Specialist

**Job Number:** T-0102-15

**Location:** Burnaby, British Columbia

---

StoneRidge Management Consultants Inc. is seeking a full-time multidisciplinary Safety Specialist to join our small but growing team in Burnaby. We are looking for an individual that is highly motivated, passionate about delivering well planned projects, thrives on challenge, and has a keen attention to detail. The ideal candidate will be a highly focused safety specialist who is eager to deliver project solutions. They will want to improve and develop their skills and experience as well as better those they come into contact with.

**QUALIFICATIONS:** A diploma in Occupational Health & Safety from a recognised institution (A certificate with sufficient industry experience may be considered). Registered or eligible for registration as a CRSP. A minimum of ten years' relevant experience in a safety field and a significant amount of operational experience would be beneficial. Excellent leadership, technical writing, analytical, communication and interpersonal skills. Proficiency with productivity, estimating, scheduling, and project software tools (MS Word, MS Excel, MS Project, VB Script, Primavera P6, PowerPoint, SharePoint). A valid class 5 driver's license is required. Prior experience with development of safety program and safety plan estimates from an owner's perspective. Applicant must have demonstrated good written, communication, and organizational skills, be detail oriented but able to think at a higher project level. Applicant is an established professional and is able to distil problems into relevant components, develop and communicate proposed problem resolution or strategy in a manner that is appropriate given the audience. Experience in the Electric Utility industry or Heavy Infrastructure industry experience is strongly desired. Candidates must have demonstrated knowledge of WorkSafe BC regulations.

**ADDITIONAL INFORMATION:** Senior Safety Specialists review and understand engineering project components (Scope, Schedule and Cost) which typically have a considerable profile, complexity and risk. The successful applicant will possess a strong commitment to process and organization to accurately plan and forecast the required safety activities and deliverables required to successfully implement the client's project and meet the client's overall goals. The successful applicant will possess the ability to listen, understand and provide safety recommendations on the implementation of the project as it relates to WorkSafe BC compliance on behalf the client. The Senior Safety Specialist must be able to review and make safety recommendations from the Owner's perspective, Owner's representative perspective, and the Contractor's perspective. The senior safety specialist will be expected to liaison with client's project team members to assist with the safety related scope schedule and cost of the project. The senior safety specialist will be responsible for assisting with the process management of the scope schedule and cost controls for the project to meet client planning metrics. The senior safety specialist possesses good written and oral communication skills and be able to discuss project safety issues with senior staff in a clear and concise manner. Senior Safety Specialists actively market new opportunities and develop input for proposals.

Safety Specialist candidates with lesser experience (5-10 years) are encouraged to apply but may be evaluated at a lesser job grouping. Work may require limited amounts of travel throughout British Columbia. All applicants are required to consent to a Criminal Record check, which will be paid for by StoneRidge Management Consultants Inc. to ensure safety, security and loss prevention.
